ARCHITECTURAL WOOD CARVING

OWING to my long experience in the line of Architectural Wood Carving, I take pleasure in showing a few pieces of hand carving which during my period in business have been executed, either from drawings or plaster models. To convince architects and builders with whom I have had no personal dealings, that work placed in my hands, will receive the utmost care as to artistic execution.

As the trade is invariably deprived of high-grade work, it is important to be absolutely certain that the contract for high-grade wood carving is placed with the right party, being equipped for any size orders, I request the trade for their confidence and support.

Most respectfully,

Hartmann-Malcom Co.

Composition Ornaments and Capitals for Interior

COMPOSITION Ornaments and Capitals for Interior, which are so extensively used to replace the hand carving, owing to its close imitation by showing the grain of the wood; also for wall and ceiling decorations surpasses by far plaster of paris for its durability.

Showing some of my designs and patterns, which have been carefully arranged, I have avoided composing designs of different patterns, which only would increase the cost of the ornaments for the trade if selected, it also would increase the size of my catalogue which would be of no material value.

It is my aim to give the trade what it wants, and would be pleased to execute any suggestion offered. Printed directions for applying composition ornaments may be obtained on application.

Most respectfully, Hartmann-Malcom Co.
Successors to
John Hartmann
